Jason Whitfield

Data Scientist - Machine Learning and Forecasting
jason.whitfield@example.com | (206) 555-0128 | Seattle, WA | github.com/jwhitfield-demo

PROFESSIONAL SUMMARY

Data scientist with 6 years of experience building forecasting and recommendation models for e-commerce and logistics. Focused on turning experimental results into production features.

WORK EXPERIENCE

Cascade Logistics, Seattle, WA — Jun 2023 – Present
Senior Data Scientist

- Developed demand-forecasting models that cut stockouts by 18% across 9 warehouses
- Productionized models with MLflow and Airflow, serving daily predictions for 50K SKUs
- Designed an experimentation framework now used by 5 product teams

Evergreen Commerce, Seattle, WA — Aug 2020 – May 2023
Data Scientist

- Built a product-recommendation model that increased average order value by 6.5%
- Created a churn-prediction pipeline (AUC 0.84) used by the retention team
- Reduced model training time by 55% by moving feature generation to Spark

Summit Research Lab, Bellevue, WA — Jun 2019 – Jul 2020
Research Assistant (Data)

- Cleaned and analyzed survey datasets with 30K+ respondents
- Co-authored an internal methodology report on sampling bias

EDUCATION

Westbridge University – M.S., Data Science — 2018 – 2020
GPA 3.8/4.0

Pinecrest College – B.S., Mathematics — 2014 – 2018

SKILLS

Python, scikit-learn, PyTorch, SQL, XGBoost, Time-Series Forecasting, A/B Testing, Spark, MLflow, Airflow, AWS SageMaker

CERTIFICATIONS

- Databricks Certified Machine Learning Associate

LANGUAGES

English
